EXPERIENCE

Product Associate | HotWax Commerce

- Worked directly with **8+ enterprise clients to understand their business requirements**, define product solutions, and support implementation through production.
- **Authored 100+ functional specifications, user stories, and SOWs**, translating complex supply chain logic including Available to Promise, Quantity on Hand, and safety stock configurations into product requirements.
- **Collaborated closely with QA, Business Analysts, cross functional teams** to oversee **end-to-end product delivery** from requirements through release.

- **Planned, orchestrated, and executed 90+ product releases** across User Acceptance Testing and Production environments, including scheduled and emergency deployments.
- Supported production rollout for global enterprise clients across North America, South America, Europe, and Japan, working across Product Information Management (**PIM**), Master Data Management (**MDM**), and **OLTP/OLAP database environments**.

PROJECT PROFILE

Vitaran Distribution Management System | Product Owner

Built a distribution management platform to replace spreadsheet-based operations, defining product scope, workflows, and user requirements for admin and field staff.

- Designed customer, product, pricing, inventory, delivery, and expense workflows, translating business processes into use cases, functional requirements, and acceptance criteria.
- Designed role-based admin with customer-specific pricing, and **WhatsApp invoice sharing through Twilio.**
- Worked with the business owner to understand requirements, define product scope and priorities, and drive the product from requirements to development.
- Set up **AWS (EC2, S3)** infrastructure and **CI/CD for deployment.**

Tech Stack: SQL, PostgreSQL, AWS, REST APIs, Postman, Git, GitHub

KEY ACHIEVEMENTS

- Promoted in recognition of outstanding delivery performance and proactive ownership of responsibilities beyond core duties.
- Received team award for performing beyond expectations.
- Received customer appreciation for taking ownership and resolving issues in time under pressure of deadline.
